

1. A deck and a card are separate, but a deck class creates an ArrayList of card objects.
2. 3
3. Create ranks, suits, and pointValues of length 52. Ranks contains 4 1's, 4 2's, 4 3's, ..., up to 4 Ace's. Suits contains 13 hearts, 13 spades, 13 diamonds, and 13 clubs. pointValues contains 4 1's, 4 2's, 4 3's, ..., 16 10's, and 4 11's.
4. Yes, because the nth index of all the arrays are part of one card.
